

****User Manual: Block-Forensic Website****

Welcome to the Secure Forensic Evidence Website! This platform aims to secure forensic evidence using blockchain technology, ensuring data integrity and collaboration among different modules. This user manual will guide you through the various features and functionalities of the website.

Accessing the Website:

- Open your preferred web browser.
- Enter the website URL (e.g., www.blockforensic.com) in the address bar.
- Press Enter to navigate to the website.

Creating an Account:

- On the website's homepage, locate the "Sign Up" or "Register" button.
- Click on the button to proceed.
- Fill out the required information in the registration form, including your name, email address, and a strong password.
- Follow the prompts to complete the registration process.
- Once registered, you can proceed to log in to your account.

Using the Website:

a. Homepage Overview:

- After logging in, you will be directed to the website's homepage.
- The homepage provides an overview of the available modules and their functionalities.
- Take a moment to familiarize yourself with the layout and navigation options.

Modules Overview:

- The website consists of four main modules: Pathology Lab, Police, Hospital, and Lawyer.
- Each module has specific functions related to securing and managing forensic evidence.
- Click on the respective module to access its features and functionalities.

Uploading Forensic Evidence:

- Within each module, locate the "Upload" or "Add Evidence" button.
- Click on the button to initiate the process.
- Follow the prompts to select and upload the relevant forensic evidence files.
- Ensure that you provide accurate and detailed information about the evidence during the upload process.

Adding Details to Forensic Evidence:

- Once the forensic evidence is uploaded, you can add additional details related to the evidence.
- Look for the "Add Details" or "Edit Information" option within the module.
- Enter the relevant information, such as analysis results, investigation details, medical records, or legal proceedings.

Viewing and Collaborating on Data:

- All modules have access to view and collaborate on the uploaded forensic evidence data.
- Navigate to the appropriate section within each module to access the data.
- Use the provided search or filter options to locate specific cases or evidence.
- Collaborate with other modules by reviewing and providing comments or updates where necessary.

****4. Help and Support:****

a. Accessing Help:

- To access the help documentation, locate the "Help" or "Support" button on the website's navigation menu.
- Click on the button to view the available help resources.

b. Contacting Support:

- If you encounter any issues or have specific queries, you can reach out to the website's support team.
- Look for the "Contact Us" or "Support" section on the website. Follow the instructions provided to contact the support team via email, phone, or any other preferred method.
